- DIN ISO 9655 precision pliers for ultra fine assembly work, e.g. in electronics and fine mechanics
  - for gripping, holding and bending
  - precision box joint
  - smooth ground gripping surfaces
  - edges carefully deburred
  - low-friction double spring for gentle and even opening
  - the polish or mirror polish (only finish 2) together with a fine film of oil offer the best possible rust protection - no circuit faults caused by peeling chrome from plated tools
  - special tool steel, oil-hardened and tempered

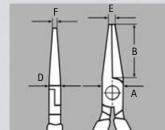

In the design of KNIPEX **Electronics Pliers for gripping** and cutting ergonomic criteria have been given particular attention. The result is a comfortable and user friendly adaption of the plier to the human hand.
