

Hybrid stereo radio

TELESTAR DIRA S 24i

* Better transmission quality and higher transmission range (up to 40m indoors, up to 200m outdoors), available if transmitter and receiver both support Bluetooth version 5.0 or higher.

The DIRA S 24i is one of the highlights of TELESTAR's new hybrid and digital radio series. It unifies state-of-the-art hybrid radio technology, excellent sound properties and a one-of-a-kind usability. It receives DAB+, FM and web radio signals, using two speakers and a digital sound processor (DSP) to create a perfect stereo sound experience. It is UPnP and Bluetooth compliant and comes with a versatile USB media mode, supporting different types of data playback plus

allowing to record your favourite radio show or music on an external USB device either by simply pushing the record button or by easily programming a schedule via the pretty user-friendly timer menu. Many additional features, such as alarm clock mode, sleep timer, multilingual menu, and favourite keys top off the list of its features, making the TELESTAR DIRA S 24i an outstanding hybrid radio in its price range.
