I **Produktinformationen**

I-1 **Verpackungsinhalt**

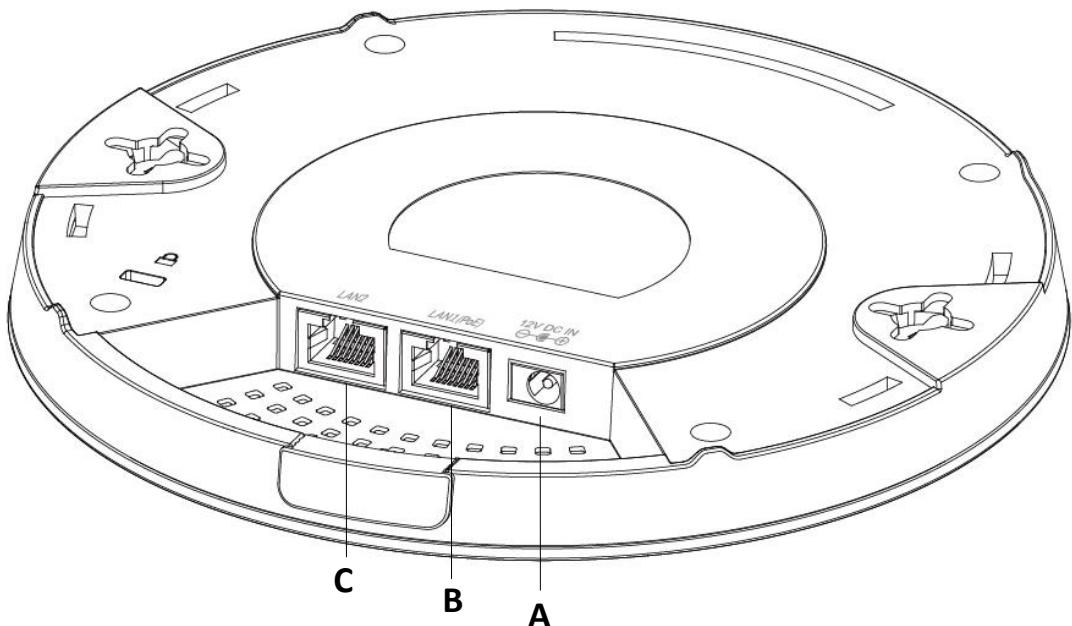

1. CAP1300 Access Point
2. Halterung für Deckenmontage
3. Montageset & Schrauben für T-Schiene
4. CD

5. Schnellinstallationsanleitung
6. Ethernetkabel
7. Netzadapter
8. Bohrvorlage für Deckenmontage

I-2 Systemanforderungen

- Vorhandenes Kabel/DSL-Modem & Router
- Computer mit Web-Browser zur Access Point-Konfiguration

I-3 Hardwareübersicht

| | | |
|----------|-------------|--|
| A | 12V DC IN | 12V DC-Anschluss für das Netzteil |
| B | LAN 1 (PoE) | LAN-Port mit Power over Ethernet (PoE) EIN |
| C | LAN 2 | LAN-Anschluss |

I-4 LED-Status

| LED-Farbe | LED-Status | Beschreibung |
|------------------|-------------------|--------------------------------------|
| Blau | An | Der Access Point ist an. |
| | Langsam blinkend | Firmware wird aktualisiert. |
| | Schnell blinkend | Werksstandardwerte wiederherstellen. |
| Gelb | An | Gerät wird gestartet. |
| | Blinkend | Fehler. |
| Aus | Aus | Der Access Point ist aus. |

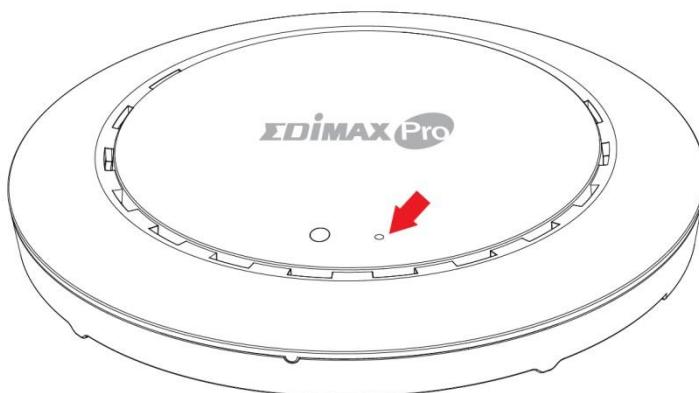

I-5 Reset

Wenn Sie mit Ihrem Access Point auf Probleme stoßen, können Sie das Gerät auf die Werksstandardeinstellungen zurücksetzen. Damit werden alle Einstellungen auf die Standardwerte zurückgesetzt.

1. Halten Sie die Reset-Taste am Access Point mindestens 10 Sekunden lang gedrückt und lassen Sie sie dann los.

Möglicherweise müssen Sie einen Stift oder ähnlichen spitzen Gegenstand benutzen, um die Reset-Taste zu drücken.

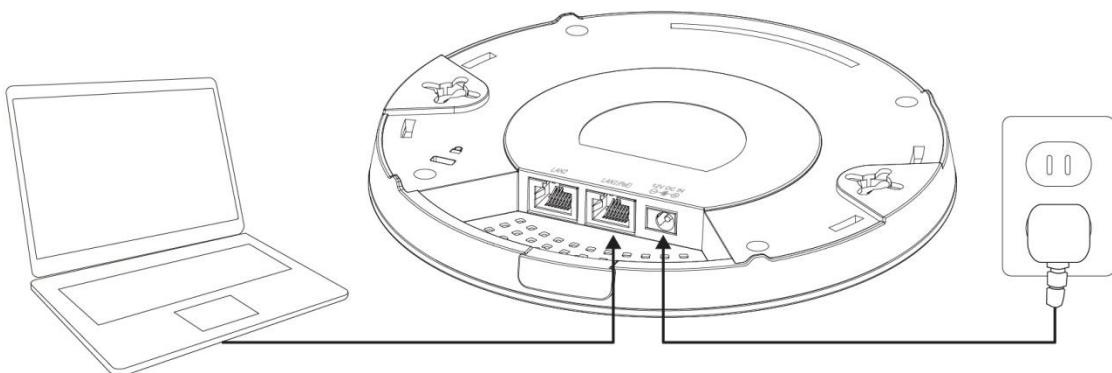

2. Warten Sie, bis der Access Point neu gestartet wird. Der Access Point für das Setup ist bereit, wenn die LED **blau** leuchtet.

II Schnelle Inbetriebnahme - AP-Modus

Ihr Access Point kann in nur wenigen Minuten in Betrieb genommen werden. Dieser Schnellinstallationsabschnitt wird Sie dabei unterstützen, Ihren Access Point in seinem standardmäßigen AP-Modus einzurichten und seine Grundeinstellungen zu konfigurieren.

II-1 Erstes Setup

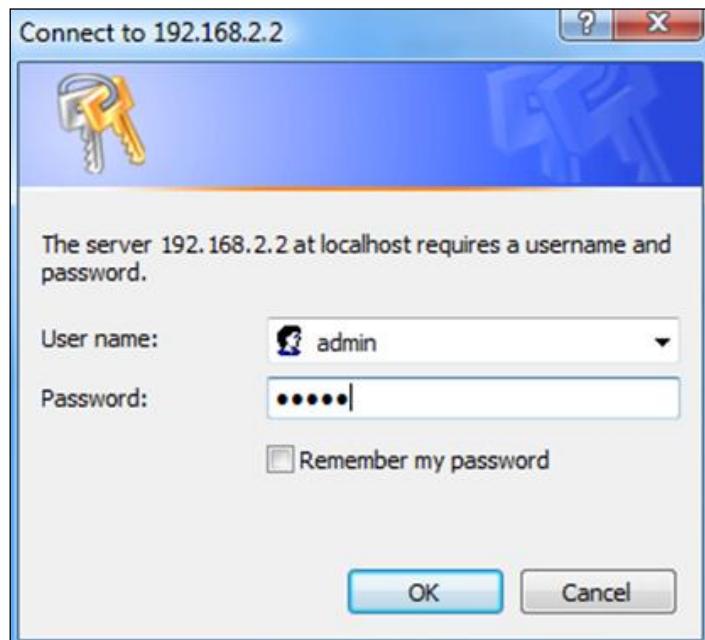

- 1.** Verbinden Sie den Access Point über ein Ethernet-Kabel mit einem Computer.
- 2.** Stecken Sie das Netzteil in den 12V-Anschluss des Access Points und in eine Steckdose.

- 3.** Warten Sie bitte einen Augenblick, bis der Access Point gestartet ist. Der Access Point ist bereit, wenn die LED **blau** leuchtet.
- 4.** Legen Sie als IP-Adresse Ihres Computers **192.168.2.x** fest, wobei x eine Zahl im Bereich **3 – 100** ist. Wenn Sie unsicher sind, wie das geht, finden Sie im Benutzerhandbuch weitere Informationen.
 ***Bitte stellen Sie sicher, dass es keine anderen aktiven Netzwerkverbindungen auf Ihrem Computer gibt, indem Sie WLAN und sonstige Ethernet-Verbindungen deaktivieren.***
- 5.** Geben Sie als Standard-IP-Adresse **192.168.2.2** in die URL-Leiste eines Web-Browsers ein.

| | | |
|--------------|--|--|
| 192.168.2.2/ | | |
|--------------|--|--|

- 6.** Sie werden aufgefordert, einen Benutzernamen und ein Passwort einzugeben. Geben Sie den Standardbenutzernamen “**admin**” und das Standardpasswort “**1234**” ein.

- 7.** Der Startbildschirm „Systeminformationen“ wird angezeigt:

EDIMAX Pro

Home | Logout | Global (English)

Information Network Settings Wireless Settings Management Advanced Operation Mode

Information

System Information

System

| | |
|--------------------|---------------------|
| Model | AP801F02F1968A |
| Product Name | AP801F02F1968A |
| Uptime | 0 day 00:41:03 |
| System Time | 2012/01/01 00:40:45 |
| Boot from | Internal memory |
| Firmware Version | 1.8.1 |
| MAC Address | 80:1F:02:F1:96:8A |
| Management VLAN ID | 1 |
| IP Address | 192.168.2.2 |
| Default Gateway | --- |
| DNS | --- |
| DHCP Server | --- |

Wired LAN Port Settings

| Wired LAN Port | Status | VLAN Mode/ID |
|----------------|----------------------------------|-------------------|
| LAN1 | Connected (100 Mbps Full-Duplex) | Untagged Port / 1 |
| LAN2 | Disconnected (---) | Untagged Port / 1 |

II-2 Grundlegende Einstellungen

Die grundlegenden Einstellungen des Access Points sind:

- **IP-Adresse LAN; und**
- **2,4GHz & 5GHz SSID & Sicherheit; und**
- **Administratorname & Passwort; und**
- **Zeit & Datum**

Es wird empfohlen, diese Einstellungen zu konfigurieren, bevor Sie den Access Point nutzen.

Immer wenn eine neue Einstellung auf den Access Point angewandt wird, lädt die Webseite neu, wie unten dargestellt:

Configuration is complete. Reloading now...

Please wait for seconds.

Die Anweisungen unten helfen Ihnen bei der Konfiguration dieser Einstellungen:

Änderung der IP-Adresse:

1. Gehen Sie zu “**Netzwerkeinstellungen**” > “**LAN-seitige IP-Adresse**” für den Bildschirm unten:

LAN-side IP Address

| LAN-side IP Address | |
|-----------------------|---------------------|
| IP Address Assignment | DHCP Client ▾ |
| IP Address | 192.168.2.2 |
| Subnet Mask | 255.255.255.0 |
| Default Gateway | From DHCP ▾ |
| Primary DNS Address | From DHCP ▾ 0.0.0.0 |
| Secondary DNS Address | From DHCP ▾ 0.0.0.0 |

- 2.** Geben Sie die Einstellungen für die IP-Adresse ein, die Sie für Ihren Access Point verwenden wollen. Sie können eine dynamische (DHCP) oder ein statische IP-Adresse verwenden, je nach Ihrer Netzwerkumgebung. Klicken Sie auf "Übernehmen", um die Änderungen zu speichern, und warten Sie etwas, bis der Access Point neu geladen ist.

Wenn Sie die IP-Adresse Ihres Access Points ändern, müssen Sie die neue IP-Adresse verwenden, um auf die Browser-basierte Konfigurationsoberfläche zugreifen zu können, nicht die Standard-IP 192.168.2.2.

Änderung der SSID für das 2,4GHz Drahtlosnetzwerk

1. Gehen Sie auf „Drahtloseinstellungen“ > „2,4GHz 11bgn“ > „Basic“.
2. Geben Sie die neue SSID für Ihr 2,4GHz Drahtlosnetzwerk in das Feld „SSID1“ ein und klicken Sie auf „Übernehmen“.

The screenshot shows the 'Wireless Settings' interface. On the left, there's a sidebar with sections for '2.4GHz 11bgn' (selected), 'Advanced', 'Security', 'WDS', 'Guest Network', '5GHz 11ac 11an' (disabled), 'Basic' (selected), 'Advanced', 'Security', 'WDS', 'Guest Network', and 'WPS'. The main panel is titled 'Basic' and contains '2.4GHz Basic Settings'. It includes fields for 'Wireless' (Enable/Disable), 'Band' (11b/g/n), 'Enable SSID number' (set to 1), and 'SSID1' (which is highlighted with a red box). Below this are sections for 'Auto Channel' (Enable/Disable), 'Auto Channel Range' (Ch 1 - 11), 'Auto Channel Interval' (One day), and 'Channel Bandwidth' (Auto). At the bottom right of the main panel are 'Apply' and 'Cancel' buttons, both of which are highlighted with red boxes.

Zur Verwendung von mehreren 2,4GHz SSIDs öffnen Sie das Dropdown-Menü namens „SSID-Nummer aktivieren“ und wählen Sie die benötigte Anzahl an SSIDs. **Geben Sie dann eine neue SSID in die entsprechenden nummerierten Felder ein, bevor Sie auf "Übernehmen" klicken.**

| | | |
|--------------------|------------|-----------|
| Enable SSID number | 2 ▼ | |
| SSID1 | [REDACTED] | VLAN ID 1 |
| SSID2 | [REDACTED] | VLAN ID 1 |

Konfiguration Sicherheitseinstellungen des 2,4GHz Drahtlosnetzwerks

1. Gehen Sie auf “Drahtloseinstellungen” > “2,4GHz 11bgn” > “Security [Sicherheit]”.
2. Wählen Sie ein „Authentifizierungsverfahren“ aus, füllen Sie die entsprechenden Felder aus oder wählen Sie diese aus und klicken Sie auf „Apply“ [Übernehmen].

| Smart Handover | <input type="radio"/> Enable <input checked="" type="radio"/> Disable |
| RSSI Threshold | -80 ▼ dB |

Apply **Cancel**

Bei Verwendung mehrerer SSIDs geben Sie über das Dropdown-Menü "SSID" an, welche SSID konfiguriert werden soll.

2.4GHz Wireless Security Settings

| | |
|---------------------------|----------------------------------|
| SSID | <input type="text" value=""/> |
| Broadcast SSID | <input type="checkbox"/> |
| Wireless Client Isolation | <input type="checkbox"/> Disable |
| 802.11k | <input type="checkbox"/> Disable |
| Load Balancing | 50 /50 |
| Authentication Method | No Authentication |
| Additional Authentication | No additional authentication |

Änderung der SSID und Konfiguration der Sicherheitseinstellung für das 5GHz Drahtlosnetzwerk

Führen Sie die in „Änderung der SSID für 2,4GHz Drahtlosnetzwerke“ und „Konfiguration der Sicherheitseinstellung für 2,4 GHz Drahtlosnetzwerke“ dargelegten Schritte aus, wählen Sie dabei stattdessen allerdings die Option 5GHz.

Änderung des Admin-Namens und -Passworts

1. Gehen Sie auf „Management“ > “Admin” wie unten dargestellt:

The screenshot shows the device's web-based management interface. The top navigation bar has tabs for Information, Network Settings, Wireless Settings, Management (which is highlighted with a red box), Advanced, and Operation Mode. On the left, there's a sidebar with a 'Management' section selected, containing links for Admin, Date and Time, Syslog Server, Ping Test, and I'm Here. The main content area is titled 'Admin' and 'Account to Manage This Device'. It contains three input fields: 'Administrator Name' with the value 'admin', 'Administrator Password' with placeholder '.....' and note '(4-32Characters)', and 'Confirm' with placeholder '.....' and note '(Confirm)'. A 'Apply' button is at the bottom.

2. Füllen Sie die Felder “Administratorname” und “Administratorpasswort” aus und klicken Sie auf “Übernehmen”.

Änderung von Datum und Uhrzeit

1. Gehen Sie auf „Management“ > “Datum und Uhrzeit”.

The screenshot shows the 'Management' section of the Access Point's configuration interface. The 'Date and Time' option is selected in the left sidebar. The main panel displays the 'Date and Time Settings' and 'NTP Time Server' sections. In the 'Date and Time Settings' section, the local time is set to January 1, 2012, at 00:00:00. There is also a button to 'Acquire Current Time from Your PC'. The 'NTP Time Server' section includes options for using NTP (disabled), enabling auto daylight saving (checked), setting a server name (User-Defined), and specifying an update interval of 24 hours. The 'Time Zone' section shows '(GMT+08:00) Taipei, Taiwan' selected. At the bottom right are 'Apply' and 'Cancel' buttons.

2. Stellen Sie über die Dropdown-Menüs die korrekte Uhrzeit und Zeitzone für Ihren Access Point ein. Der Access Point unterstützt auch NTP (Network Time Protocol), so dass Sie alternativ auch den Hostnamen oder die IP-Adresse von einem Zeit-Server eingeben können. Klicken Sie auf "Übernehmen", wenn Sie fertig sind.
Sie können die Schaltfläche “Aktuelle Zeit von Ihrem PC abrufen” verwenden, wenn Sie den Access Point auf die gleiche Zeit wie Ihren PC einstellen wollen.

Die Grundeinstellungen Ihres Access Point sind jetzt konfiguriert. Bitte beziehen Sie sich auf IV **Hardwareinstallation** für Anweisungen dazu, wie Sie Ihren Access Point mit einem Router oder PoE-Switch verbinden.

II-3 Wi-Fi-geschützte Einrichtung (WPS)

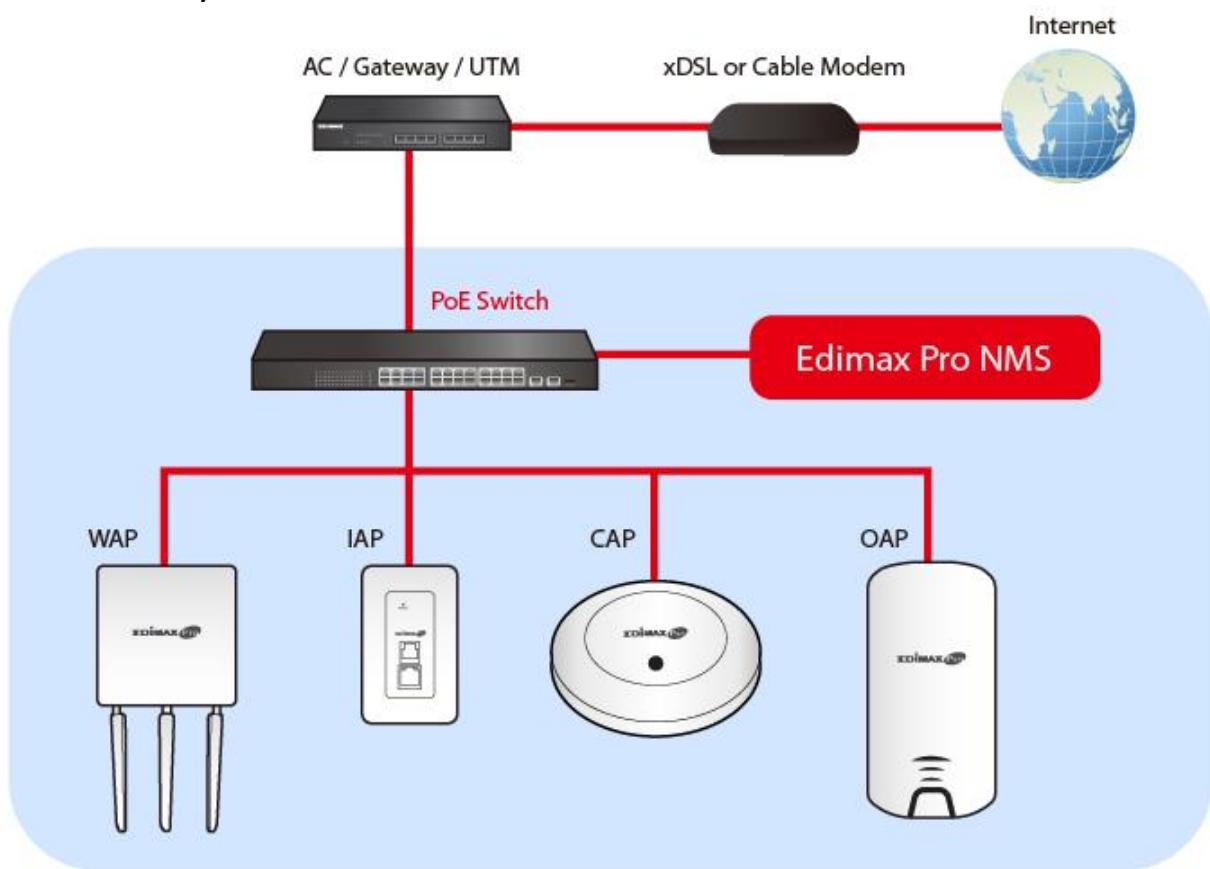

Wi-Fi-geschützte Einrichtung (WPS) ist eine einfache Methode, um Verbindungen zwischen WPS-fähigen Geräten herzustellen. Sie können die WPS-Taste oder die Konfigurations-Webseite verwenden, um die WPS-Funktion des Access Points zu aktivieren.

- 1.** Gehen Sie auf **“Drahtloseinstellungen” > “WPS”** auf Ihrer Konfigurations-Webseite.
- 2.** Kreuzen Sie das Auswahlkästchen „Aktivieren“ an und klicken Sie auf „Übernehmen“, um die WPS-Funktion einzuschalten.
- 3.** Aktivieren Sie innerhalb von zwei Minuten WPS auf dem WPS-fähigen Drahtlosgerät. Informationen über die WPS-Funktion finden Sie in der Dokumentation zu Ihrem Drahtlosgerät.
- 4.** Die Geräte stellen eine Verbindung her.

III Schnelle Einrichtung - NMS

Die Edimax Pro Network Management Suite (NMS) unterstützt die zentrale Verwaltung einer Gruppe von Access Points, die auch als AP-Array bezeichnet wird. NMS kann an einem Zugangspunkt installiert werden und unterstützt bis zu 16 Edimax Pro Zugangspunkte ohne den Bedarf eines zusätzlichen Drahtlos-Reglers, wodurch Kosten reduziert und ein effizientes AP-Fernmanagement erleichtert wird.

Edimax Pro NMS ist einfach einzurichten. Nachfolgend finden Sie eine Übersicht des Systems:

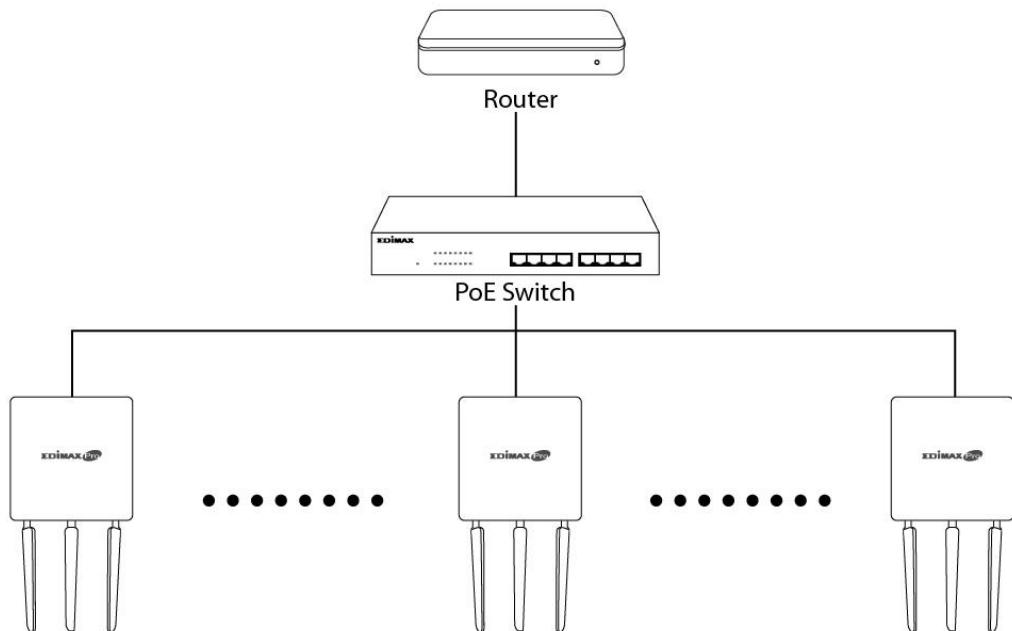

Ein AP (Access Point) wird als AP-Controller (Master) und andere verbundene Edimax Pro APs werden automatisch als Managed APs (Slaves) bezeichnet. Mit Hilfe von Edimax Pro NMS können Sie alle Managed APs (bis zu 16) über einen einzelnen AP-Controller überwachen, konfigurieren und verwalten.

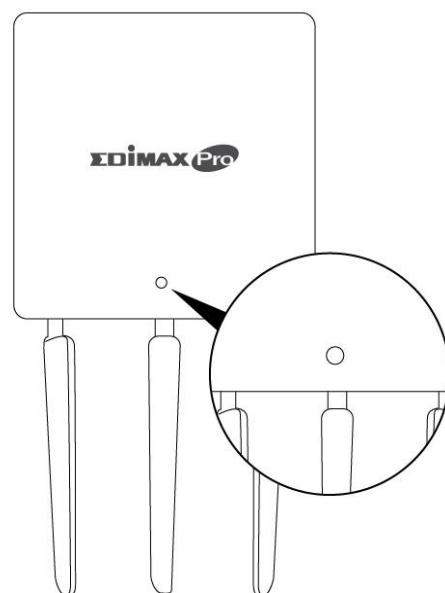

Führen Sie die Schritte unten aus:

 **Stellen Sie sicher, dass Sie für Ihre Edimax Pro-Produkte über die neueste Firmware von der Edimax-Website verfügen.**

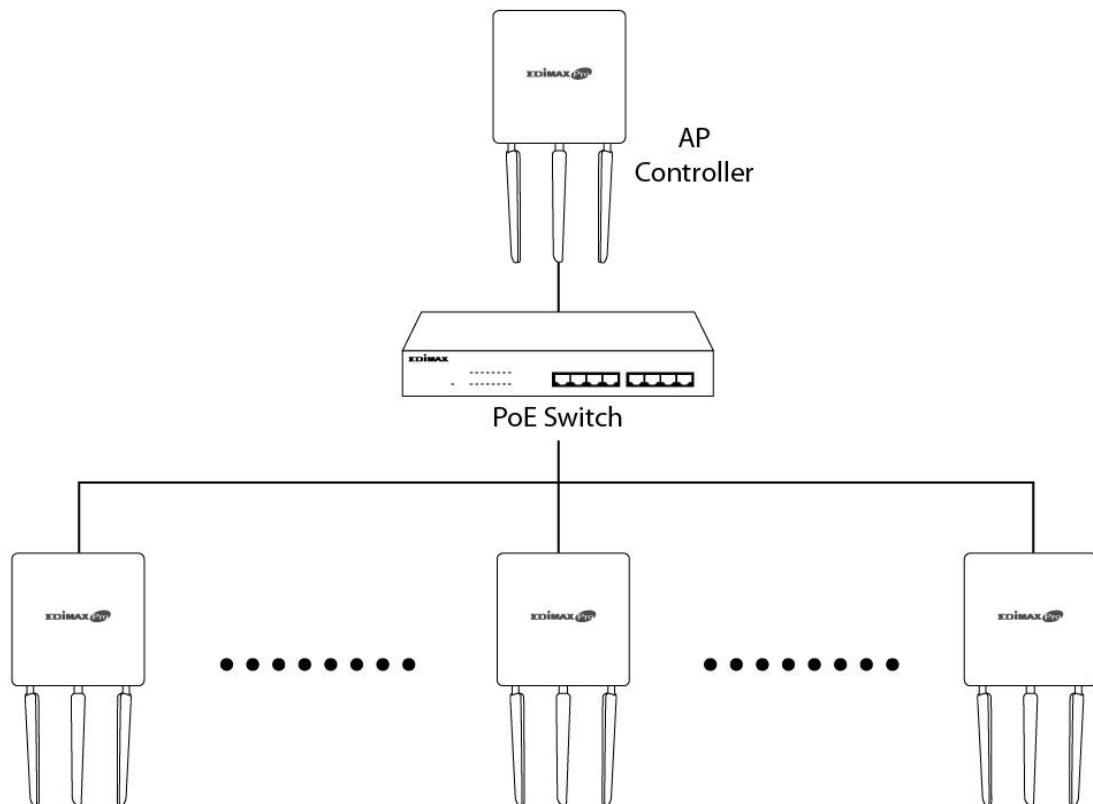

1. Schließen Sie alle APs an einen Ethernet- oder PoE-Switch an, der mit einem Gateway/Router verbunden ist.

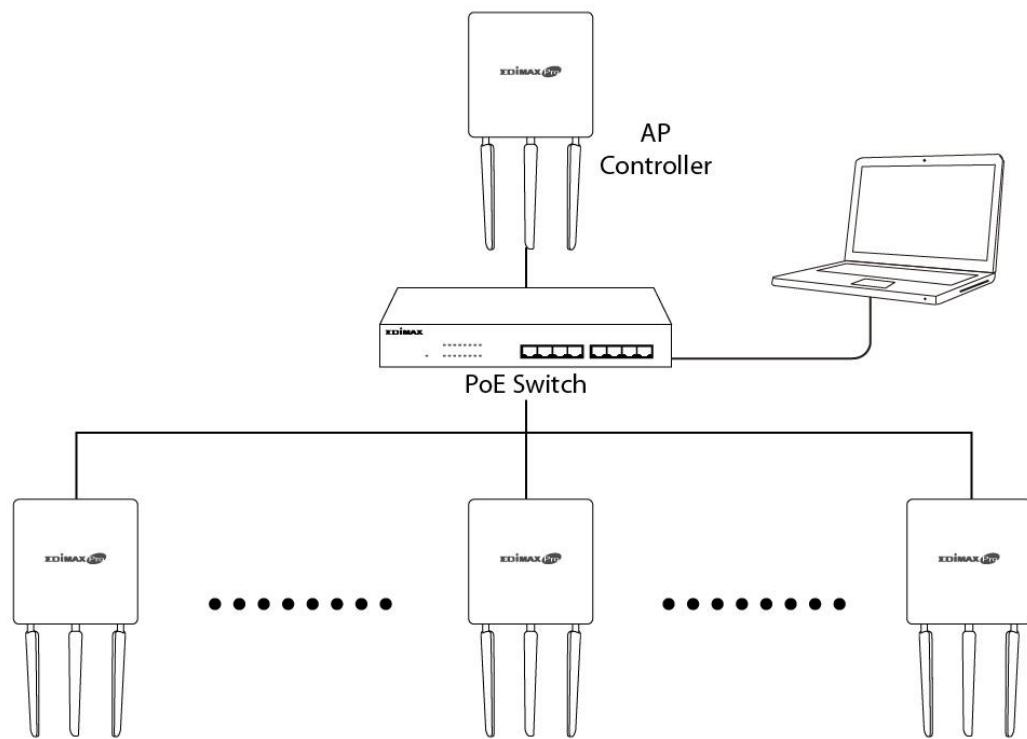

2. Stellen Sie sicher, dass alle APs eingeschaltet sind, und überprüfen Sie ihre LEDs.

- 3.** Legen Sie einen AP als AP-Controller fest, der alle anderen angeschlossenen APs verwaltet (bis zu 16).

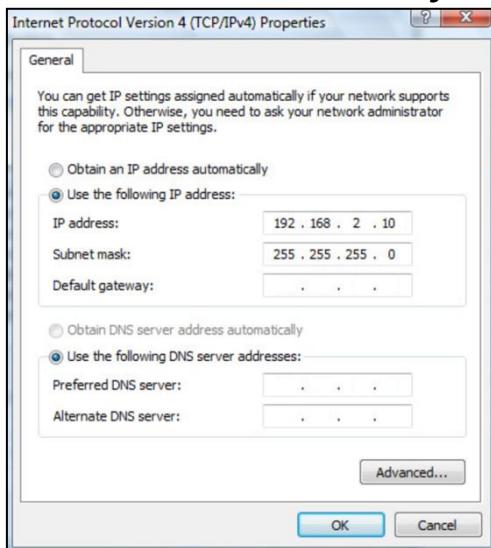

- 4.** Verbinden Sie einen Computer über ein Ethernet-Kabel mit dem entsprechenden AP-Controller.

- 5.** Öffnen Sie einen Webbrowser und geben Sie die IP-Adresse des AP-Controllers in das Adressfeld ein. Die Standard-IP-Adresse ist **192.168.2.2**

 **Die IP-Adresse Ihres Computers muss sich im selben Subnet wie der AP-Controller befinden. Im Benutzerhandbuch finden Sie weitere Hilfe.**

 **Wenn Sie die IP-Adresse des AP-Controllers geändert haben oder wenn Ihr Gateway/Router einen DHCP-Server nutzt, achten Sie darauf, dass Sie die richtige IP-Adresse eingeben. Beachten Sie dazu die Einstellungen Ihres Gateways/Routers.**

- 6.** Geben Sie zum Anmelden den Benutzernamen und das Passwort ein. Der Standardbenutzername und das Standardpasswort lauten **admin** & **1234**.
- 7.** Sie werden zum Edimax Pro NMS Dashboard geleitet. Gehen Sie zu **“Management”** → **“Betriebsmodus”** und wählen Sie im Dropdown-Menü **“AP-Controller-Modus”** aus.

| Operation Mode | Wireless Mode |
|---------------------------|---------------|
| AP Mode | 2.4GHz Mode |
| AP Mode | 5GHz Mode |
| Repeater Mode | |
| AP Controller Mode | |
| Managed AP mode | |
| Client Bridge Mode | |
| Access Point | |

- 8.** Klicken Sie auf „Apply“ (Übernehmen), um die Einstellungen zu speichern.

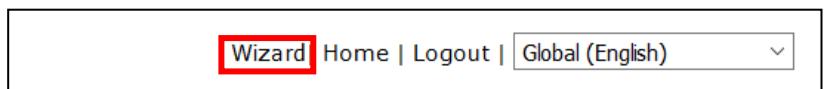

Operation Mode

Wireless Mode

Management

Apply **Cancel**

- 9.** Edimax Pro NMS umfasst einen Assistenten, mit dem die SSID und die Sicherheit für Managed APs schnell eingerichtet werden kann. Klicken Sie zum Beginnen in der rechten oberen Ecke auf „Assistent“.

- 10.** Folgen Sie den Anweisungen auf dem Bildschirm, um die **Schritte 1-6** durchzuführen und klicken Sie auf “**Fertig**”, um die Einstellungen zu speichern.

Step 1 2 3 4 5 6 Finish

Installation

Before start, please power on the managed APs and plug into the same Ethernet network with this AP Controller.

This Setup Wizard will guide you through a basic procedure to configure AP Controller system.

Next >> Cancel

Verwenden Sie **Dashboard, Zonenplan, NMS-Monitor & NMS-Einstellungen**, um Managed APs zu konfigurieren.

Verwenden Sie **Lokales Netzwerk & Lokale Einstellungen**, um Ihren AP-Controller zu konfigurieren.

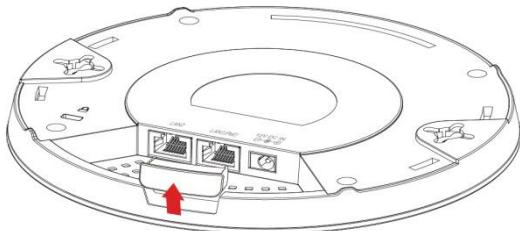

Weitere Informationen finden Sie im Benutzerhandbuch.

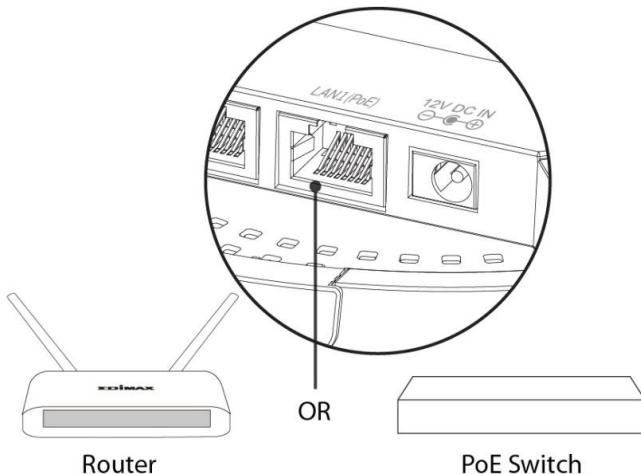

IV Hardwareinstallation

IV-1 Router/PoE-Switch

1. Falls nötig, die Kappe von der Unterseite des Access Points abnehmen. Dadurch erhalten Sie zusätzlichen Platz zum Verlegen von Kabeln.

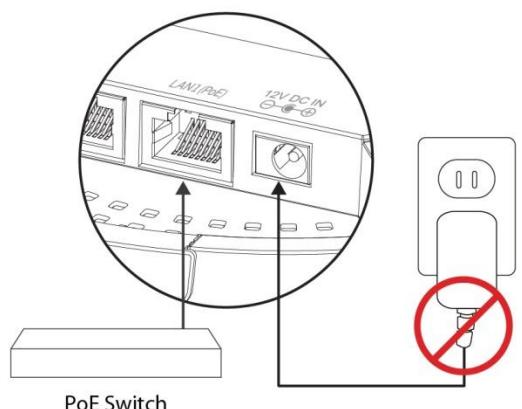

2. Verbinden Sie einen Router oder einen PoE-Switch über eine Ethernet-Kabel mit dem **LAN 1-Port** des Access Points.

3. Schalten Sie den Access Point ein.

- a) Wenn ein Router verwendet wird, stecken Sie das Netzteil in den 12V-Anschluss des Access Points und in eine Steckdose; oder
- b) Wenn ein PoE (Power over Ethernet)-Switch verwendet wird, dann stellen Sie sicher, dass das Ethernet-Kabel an einen **LAN1**-Anschluss des Switch angeschlossen wird. Der Access Point wird durch den PoE-Switch betrieben.

Verwenden Sie das Netzteil nicht, wenn Sie einen PoE-Switch nutzen.

4. Verbinden Sie ggf. einen lokalen Netzwerk-Client oder Switch mit dem **LAN 2**-Anschluss des Access Points.

The device is restricted to indoor use only when operating in the 5150 to 5350 MHz frequency range.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio technician for help.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

For product available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible.

This device is restricted to indoor use.

Federal Radiation Exposure Statement

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body or nearby persons.

RED Compliance Statement

Compliance with 2014/53/EU Radio Equipment Directive (RED)

In accordance with Article 10.8(a) and 10.8(b) of the RED, the following table provides information on the frequency bands used and the maximum RF transmit power of the product for sale in the EU:

| Frequency range (MHz) | Max. transmit power (dBm) |
|-----------------------|---------------------------|
| 2400-2483.5 | 19.90 dBm |
| 5150-5250 | 22.93 dBm |
| 5250-5350 | 22.92 dBm |
| 5470-5725 | 29.29 dBm |

A simplified DoC shall be provided as follows: Article 10(9)

Hereby, Edimax Technology Co., Ltd. declares that the radio equipment type **AC1300 DBDC Ceiling-mount AP** is in compliance with Directive 2014/53/EU

The full text of the EU declaration of conformity is available at the following internet address: <http://www.edimax.com/edimax/global/>

Safety

This equipment is designed with the utmost care for the safety of those who install and use it. However, special attention must be paid to the dangers of electric shock and static electricity when working with electrical

equipment. All guidelines of this and of the computer manufacture must therefore be allowed at all times to ensure the safe use of the equipment.

EU Countries Intended for Use

The ETSI version of this device is intended for home and office use in Austria, Belgium, Bulgaria, Cyprus, Czech, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Turkey, and United Kingdom. The ETSI version of this device is also authorized for use in EFTA member states: Iceland, Liechtenstein, Norway, and Switzerland.

EU Countries Not Intended for Use

None

EU Declaration of Conformity

- English:** This equipment is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU, 2014/35/EU.
- Français:** Cet équipement est conforme aux exigences essentielles et autres dispositions de la directive 2014/53/EU, 2014/35/EU.
- Čeština:** Toto zařízení je v souladu se základními požadavky a ostatními příslušnými ustanoveními směrnic 2014/53/EU, 2014/35/EU.
- Polski:** Urządzenie jest zgodne z ogólnymi wymaganiami oraz szczególnymi warunkami określonymi Dyrektywą UE 2014/53/EU, 2014/35/EU.
- Română:** Acest echipament este în conformitate cu cerințele esențiale și alte prevederi relevante ale Directivei 2014/53/UE, 2014/35/UE.
- Русский:** Это оборудование соответствует основным требованиям и положениям Директивы 2014/53/EU, 2014/35/EU.
- Magyar:** Ez a berendezés megfelel az alapvető követelményeknek és más vonatkozó irányelveknek (2014/53/EU, 2014/35/EU).
- Türkçe:** Bu cihaz 2014/53/EU, 2014/35/EU direktifleri zorunlu istekler ve diğer hükümlerle ile uyumludur.
- Українська:** Обладнання відповідає вимогам і умовам директиви 2014/53/EU, 2014/35/EU.
- Slovenčina:** Toto zariadenie spĺňa základné požiadavky a ďalšie príslušné ustanovenia smerníc 2014/53/EU, 2014/35/EU.
- Deutsch:** Dieses Gerät erfüllt die Voraussetzungen gemäß den Richtlinien 2014/53/EU, 2014/35/EU.
- Español:** El presente equipo cumple los requisitos esenciales de la Directiva 2014/53/EU, 2014/35/EU.
- Italiano:** Questo apparecchio è conforme ai requisiti essenziali e alle altre disposizioni applicabili della Direttiva 2014/53/EU, 2014/35/UE.
- Nederlands:** Dit apparaat voldoet aan de essentiële eisen en andere van toepassing zijnde bepalingen van richtlijn 2014/53/EU, 2014/35/EU.
- Português:** Este equipamento cumpre os requisitos essenciais da Directiva 2014/53/EU, 2014/35/EU.
- Norsk:** Dette utstyret er i samsvar med de viktigste kravene og andre relevante regler i Direktiv 2014/53/EU, 2014/35/EU.
- Svenska:** Denna utrustning är i överensstämmelse med de väsentliga kraven och övriga relevanta bestämmelser i direktiv 2014/53/EU, 2014/35/EU.
- Dansk:** Dette udstyr er i overensstemmelse med de væsentligste krav og andre relevante forordninger i direktiv 2014/53/EU, 2014/35/EU.
- suomen kieli:** Tämä laite täyttää direktiivien 2014/53/EU, 2014/35/EU. oleelliset vaatimukset ja muut asiaankuuluvat määräykset.

WEEE Directive & Product Disposal

At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.

Declaration of Conformity

We, Edimax Technology Co., Ltd., declare under our sole responsibility, that the equipment described below complies with the requirements of the European Radio Equipment Directive.

Equipment: AC1300 DBDC Ceiling-mount AP
Model No.: CAP1300

The following European standards for essential requirements have been followed:

Directives 2014/53/EU

Spectrum : EN 300 328 V2.1.1 (2016-11)
EN 301 893 V2.1.1 (2017-05)

EMC : Draft EN 301 489-1 V2.2.1 (2019-03)
Draft EN 301 489-17 V3.2.0 (2017-03)

EMF : EN 62311:2008

Safety (LVD) : IEC 62368-1:2014 (2nd Edition) and/or EN 62368-1:2014+A11:2017

Notice According to GNU General Public License Version 2

This product includes software that is subject to the GNU General Public License version 2. The program is free software and distributed without any warranty of the author. We offer, valid for at least three years, to give you, for a charge no more than the costs of physically performing source distribution, a complete machine-readable copy of the corresponding source code.

Das Produkt beinhaltet Software, die den Bedingungen der GNU/GPL-Version 2 unterliegt. Das Programm ist eine sog. „Free Software“, der Autor stellt das Programm ohne irgendeine Gewährleistungen zur Verfügung. Wir bieten Ihnen für einen Zeitraum von drei Jahren an, eine vollständige maschinenlesbare Kopie des Quelltextes der Programme zur Verfügung zu stellen – zu nicht höheren Kosten als denen, die durch den physikalischen Kopiervorgang anfallen.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The “Program”, below, refers to any such program or work, and a “work based on the Program” means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term “modification”.) Each licensee is addressed as “you”.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
