

## 1:4 , 1:8 COMPOSITE VIDEO DISTRIBUTION AMPLIFIERS

### SB-3705 STEREO AUDIO 1:4

### SB-3706BNC COMPOSITE VIDEO(BNC) 1:8

### SB-3706 COMPOSITE VIDEO 1:8

### SB-3706SV S-VIDEO 1:8

### SB-3706 VIDEO DISTRIBUTION AMPLIFIER 1:8

SB-3706/SB-3706BNC/SB-3706SV are Composite Video/Composite Video (BNC connectors) /S-Video Amplifier. Each one has 1 input with 8 outputs. These are useful for routing signals. SB-3705 is Stereo Audio Amplifier. It has 1 input with 4 outputs and it is useful for distributing signals. These are useful for distributing signals from VCRs, Camcorders, Video Game Consoles, DVDs, Satellite Receivers, CATV Set Top Box, etc.

#### FEATURES

- Support S-Video or Composite Video(or BNC) or Stereo Audio Distribution Amplifier
- SB-3705: Input: 1x Stereo Audio  
Output: 4x Stereo Audio
- SB-3706: Input: 1x Composite Video  
Output: 8x Composite Video
- SB-3706BNC: Input: 1x Composite Video(BNC connectors)  
Output: 8x Composite Video(BNC connectors)
- SB-3706SV: Input: 1x S-Video  
Output: 8x S-Video
- 1x DC input at rear panel
- 1 x ON/OFF Power switch

#### SPECIFICATIONS

- Type of Amplifier: 1x4/8 S-Video or Composite Video(or BNC) or Stereo Audio Distribution Amplifier
- Type of Signal: S-Video or Composite Video(or BNC) or Stereo Audio connectors
- Video Bandwidth: 80MHz
- Slew Rate: 1000V/us, Fixed internal gain of 2
- Audio Frequency Respond: 20Hz~20KHz
- Signal Distance: up to 300~1000 feet away
- Scan rates accepted: 50Hz or 60Hz
- Safety Approvals: CE, FCC, RoHS (2002/95/EC)
- Dimension: 6.8" x 3.1" x 0.9"
- Power Supply: DC12V /0.66mA
