- 330 m range ensures secure reception in and around the house
- Small, mobile parent unit to freely roam around the house
- The belt clip provides hands-free convenience and mobility
- Rechargeable PU for minimum 24 hrs monitoring

Soothing sights and words

- Allows you to talk to the baby
- Soft glow comforts baby if she wakes

PHILIPS
AVENT

sense and simplicity

Highlights

Guaranteed zero interference

Guarantees zero interference from any other device (other baby monitors, cordless phones and mobile phones). Provides a secure and private connection using data encryption. You will be the only one who can hear your baby and you will only hear your own baby.

Adjustable sound sensitivity

The adjustable sound sensitivity function will allow you to increase/decrease the microphone sensitivity to enable you to listen to your baby breathe.

With a range up to 330 m

With a range up to 330 m you are assured of secure reception in and around the house.

Small, mobile parent unit

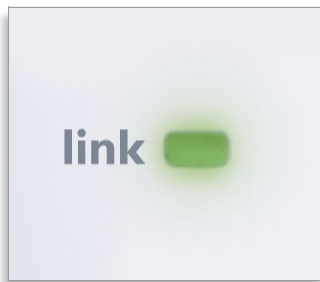

Allows you to freely roam around the house due to the small size, but still hear when your baby needs you.

Parent talkback

Allows you to hear the baby and talk to the baby.

Digital signal confirmation

Indicates a continuous connection between the baby and the parent unit with visible and audible link indicators.

Soothing night-light

Soft glow comforts baby if she wakes.

Sound level lights

Uses lights to indicate if the baby makes a noise, even with volume off.

Philips AVENT Advantage

Choosing Philips AVENT means you have the assurance of superior quality products, designed with you and your baby's needs in mind.

24-hr monitoring

The rechargeable parent unit will give you the freedom of cordless roaming for 24 hours before recharging is required.
