- Rechargeable parent unit for minimum 24 hours of monitoring
- Belt clip and neck cord for hands-free roaming

Soothing sights, sounds and words

- Lullabies and night light
- Allows you to talk to the baby

PHILIPS
AVENT

sense and simplicity

Highlights

With a range up to 330 m

With a range up to 330 m you are assured of secure reception in and around the house.

Temperature sensor

Baby needs extra time to adjust to temperature changes. The adjustable sensor monitors baby's room for optimal comfort and the personal temperature range settings alert you to adjust the climate when needed.

Digital signal confirmation

Indicates a continuous connection between the baby and the parent unit with visible and audible link indicators.

Small, rechargeable parent unit

The rechargeable parent unit gives you the freedom of cordless roaming for 24 hours before recharging is required.

Belt clip and neck cord

The belt clip and neck cord provide hands-free convenience and mobility.

Guaranteed zero interference

Guarantees zero interference from any other device (other baby monitors, cordless phones and mobile phones). Provides a secure and private connection using data encryption. You

will be the only one who can hear your baby and you will only hear your own baby.

Sound level lights

Uses lights to indicate if the baby makes a noise, even with volume off.

Adjustable sound sensitivity

The adjustable sound sensitivity function will allow you to increase/decrease the microphone sensitivity to enable you to listen to your baby breathe.

Philips AVENT Advantage

Choosing Philips AVENT means you have the assurance of superior quality products, designed with you and your baby's needs in mind.

Lullabies and night light

An integrated night light and specially selected lullabies soothe baby to sleep.

Parent talkback

Allows you to hear the baby and talk to the baby.
