Wi-Fi Range Extender N300

Product code   : WLX-2001
Product name   : Wi-Fi Range Extender N300
EAN code   : 8716502025442

Easily extend the range of your wireless network

With the WLX-2001 Wi-Fi Range Extender N300 you can easily extend the range of your wireless network. The range extender is ideal to create a stable connection in all the rooms of your house and garden. Thanks to the installation wizard it is easy to set up the range extender within minutes. Or connect devices to your range extender with just a push on the OPS (One Push Set-up) button. The LED indicator helps you find the ideal position in the house to boost your wireless signal.

The range extender is based on 802.11n wireless technology and supports transfer speed up to 300 Mbps. It is also backward compatible with the older wireless technologies 802.11b and 802.11g. The range extender supports all existing security standards (64/128-bit WEP, WPA, and WPA2) to guarantee compatibility with your existing router or modem router.

Through the integrated 5-port switch you can also connect multiple wired devices to the range extender. The switch has 5 Fast Ethernet ports that support wired transfer speed up to 100 Mbps.

This product comes with the extensive 10-year Sitecom warranty. Simply activate the long-term warranty by registering your product within 3 weeks of purchase.
