Universal Wi-Fi Adapter for Smart TV

Product code : WLX-2004
 Product name : Universal Wi-Fi Adapter for Smart TV
 EAN code : 8716502025756

Wirelessly connect your Smart TV, Blu-ray player, game console or media player to the Internet

With the WLX-2004 Universal Wi-Fi Adapter you can wirelessly connect your Smart TV, Blu-ray player, game console or media player to the Internet. As many Smart TVs do not have a built in wireless adapter, this is the ideal device to upgrade your Smart TV and connect it to your wireless home network. Simply avoid messy wires and cables altogether. The Wi-Fi adapter has superior wireless performance ideal for demanding HD video streaming.

The Wi-Fi adapter works with any device with a network port and is thus compatible with all brands and models. It is fully Plug and Play (PnP) and requires no installation or configuration. Simply connect the Wi-Fi adapter to the free network port of your device and free USB port for the power supply. You don't need a power outlet which allows you to place the Wi-Fi adapter anywhere you want. For invisible installation, you can use the supplied velcro sticker to mount it to the back of your Smart TV or other device and leave no wires exposed.

For a secure wireless connection simply push the OPS (One Push Set-up) button on the Wi-Fi adapter to connect to your router's wireless network.

It comes with the extensive 10-year Sitecom warranty. Simply activate the long-term warranty by registering your product within 3 weeks of purchase.
