Plug-and-Play

Connect

# II-1-1. Insert the USB Adapter

**1.** Insert the USB adapter into your computer and then switch on your computer.

## II-1-2. Wi-Fi Plug-and-Play

 The Network icon 
 will be displayed on the bottom-right corner of the Windows taskbar if Plug-and-Play is supported. (If the Network icon doesn't display, please refer to VI. FAQ -> Q1)

Notice that the Network icon might be different depending on the version of your Operating System.

If your Operating System does not recognize the USB adapter, you will need to install an additional driver on your computer. Please refer to "Section III".

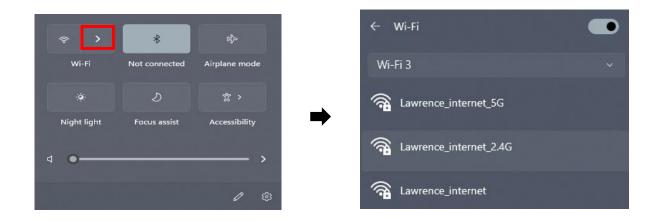

### II-1-3. Select & Connect to the Wi-Fi Network

Select your Wi-Fi Network (SSID), click "**Connect**" and enter the password if it is required.

**1.** For Windows 11 users, click the Network icon and then click the right-arrow icon to show the existing Wi-Fi Network (SSID) and select the one you want to connect. Move to step 3 if a password is required.

2. For Windows 10 users, click the Network icon to show the existing Wi-Fi Network (SSID) and select the one you want to connect.

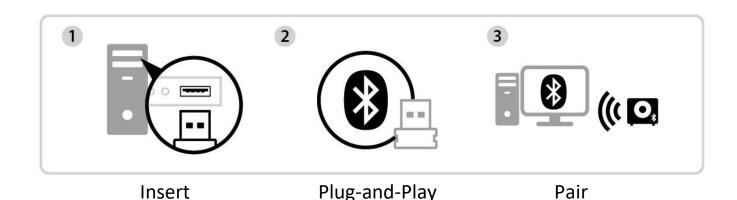

**3.** Enter the password if it is required.

**4.** Establish the Wi-Fi connection and you can access Internet when you see the Wi-Fi icon on the bottom-right corner of the Windows taskbar.

# II-2. Bluetooth Installation

### II-2-1. Insert the USB Adapter

Insert the USB adapter into your computer and then switch on your computer.

Never use force to insert the USB adapter.

Please disable all the existing Bluetooth devices before inserting the device into your computer. (Refer to VI. FAQ -> Q2)

#### II-2-2. Bluetooth Plug-and-Play

If your Windows OS supports Plug-and-Play, the Bluetooth icon *vill be* displayed on the bottom-right taskbar. (If Bluetooth icon doesn't display, please refer to VI. FAQ -> Q4)

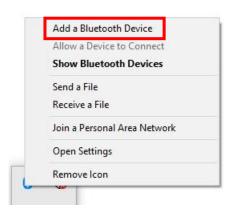

Notice that if the Bluetooth icon does not show up, continue to click the arrow-up icon.

If your Operating System does not recognize the USB adapter, you need to install an additional driver on your computer. Please refer to "Section III".

- II-2-3. Pair with Bluetooth Device
- 1. Click "Add a Bluetooth Device".

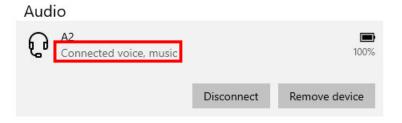

2. Select existing Bluetooth devices from the list or click "Bluetooth & other devices" to add an new Bluetooth device.

| Setting                   |                                 |
|---------------------------|---------------------------------|
| ᢙ Home                    | Bluetooth & other devices       |

Connect or Pair

# III-1. Insert the USB Adapter

Insert the USB adapter into your computer and then switch on your computer.

Never use force to insert the USB adapter.

Please disable all the existing Bluetooth devices before inserting the device into your computer. (Refer to VI. FAQ -> Q2)

# III-2. Download the Driver

**1.** You can find the USB adapter driver from the Edimax website.

https://www.edimax.com/download

# If your computer can not access the Internet directly, please use an Internet-Enabled device to download the driver instead.

2. Enter the model number and click 🔍 to continue.

#### Download

To select your product and find related download materials, enter the model number into the search box on the right side or follow the simple steps below:

**3.** Click on the model number.

Products > Home > Wireless Adapters > AC600 Dual-Band > EW-7611UCB **EW-7611UCB** AC600 Dual-Band Wi-Fi & Bluetooth 4.0 USB Adapter

Ensure the model number corresponds with your USB adapter.

4. Scroll down the web page and select the correct OS version. Move the cursor to the "Download icon" 📥 and save the driver on the computer desktop or a location you prefer.

| Title  | ۲ | File<br>Type | File Size    |   |
|--|---|--------------|--------------|---|
| EW-7611UCB Linux driver<br>Wi-Fi driver Version 1.0.1.0 & Bluetooth driver version 1.0.0.8<br>Support Kernel : 2.6.18-5.8(only support Fedora & Ubuntu) (Version : 1.0.1.0) 2021-08-<br>05 |   |              | 6.53 MB      | 4 |

|      |  | -                                   | ed. |  |  |

**5.** Establish the Wi-Fi connection and you can access the Internet when you see the Wi-Fi icon on the bottom-right corner of the Windows taskbar.

## III-3-2. Bluetooth Pairing

#### III-3-2-1. Buetooth Driver Installation

 To install the Bluetooth, once it's uncompressed fully, access the folder "Bluetooth" and click "Setup.exe" to continue.

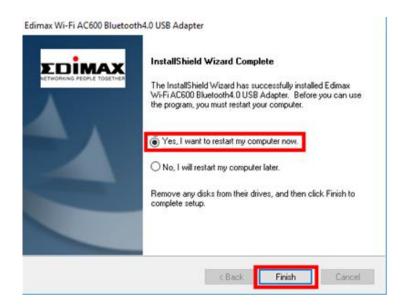

Notice that both Wi-Fi and Bluetooth drivers are in the same filename but in different folders.

**2.** Click ick "**Next**" to continue and follow the instructions on-screen until installation is completed.

 When the installation is completed, you will be asked to select whether you wish to restart your computer now or later. Select "Yes" and click "Finish" to continue.

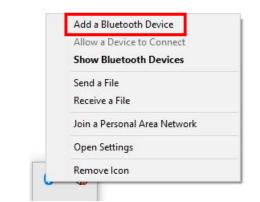

- **III-3-2-2.** Pair with the Bluetooth Devices
- Click the Bluetooth icon lisplayed on the bottom-right taskbar to pop up the menu. (If Bluetooth icon is not displayed, please refer to VI. FAQ -> Q4)

Notice that if the Bluetooth icon does not show up, click the arrow-up icon.

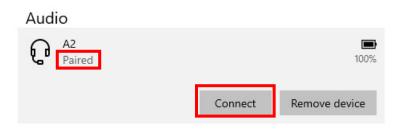

2. Click "Add a Bluetooth Device".

Select the existing Bluetooth devices from the list or click "Bluetooth & other devices" to add new Bluetooth devices.

| Setting                   |                                 |
|---------------------------|---------------------------------|
| ŵ Home                    | Bluetooth & other devices       |
| Devices                   | + Add Bluetooth & other devices |
| Bluetooth & other devices |                                 |
| 品 Printers & scanners     | -                               |

 Select the Bluetooth device in "Paired" status you want to pair with and click "Connect".

5. Once the status is "Connected", the connection is established.

# **IV.** macOS Driver Installation

Insert

**Download & Install Driver** 

Connect

# IV-1. Insert the USB Adapter

1. Insert the USB adapter into the USB port and then switch on your computer.

# IV-2. Download & Install the Driver

**1.** You can find the driver from the Edimax website.

https://www.edimax.com/download

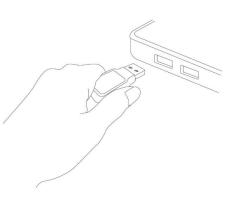

*If your MAC can not access the Internet directly, please use an Internet-Enabled device instead.* 

**2.** Enter the model number and then click Q to continue.

#### Download

To select your product and find related download materials, enter the model number into the search box on the right side or follow the simple steps below:

Model no.

**3.** Click on the model number.

Products > Home > Wireless Adapters > AC600 Dual-Band > EW-7611UCB EW-7611UCB AC600 Dual-Band Wi-Fi & Bluetooth 4.0 USB Adapter

Ensure the model number corresponds with the USB adapter.

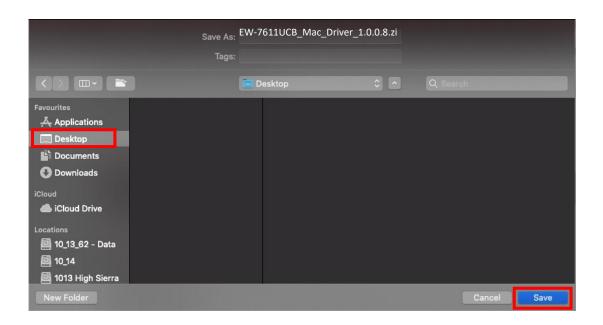

4. Scroll down the web page and select the right OS version. Move the cursor to the "Download icon" and save the driver on the computer desktop or a location you prefer.

Ensure you select the correct file for your version of Mac OS. To check your version of Mac OS, click the Apple logo in the top left corner of your desktop and go to "About This Mac".

| Title  | File<br>Type | File Size    |   |
|--|--------------|--------------|---|
| EW-7611UCB Linux driver<br>Wi-Fi driver Version 1.0.1.0 & Bluetooth driver version 1.0.0.8<br>Support Kernel : 2.6.18-5.8(only support Fedora & Ubuntu) (Version : 1.0.1.0) 2021-08-<br>05 | ZIP          | 6.53 MB      | 4 |
| EW-7611UCB Mac Driver<br>Support OS : Mac 10.15<br>WPA3 SAE is only supported in Mac. (Version : 1.0.0.8) 2021-05-25   | ZIP          | 9.49 ME      | 8 |

5. Click "Download Linked File As..." and select "Desktop" and click "Save" to store the driver on the computer desktop.

6. Move the cursor to the file you downloaded and double click to extract it.

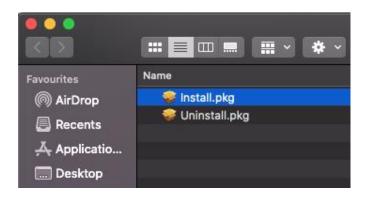

Copy the driver to the USB adapter first if you downloaded the driver on another Internet-Enabled device then insert the USB flash drive to the computer you will use the Wi-Fi USB adapter.

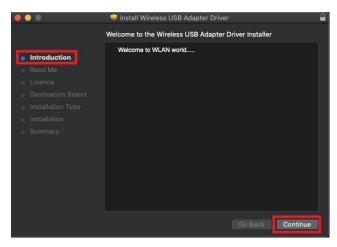

7. Once the driver is uncompressed, you will see a new folder.

8. Access the folder and click "Install.pkg" to continue.

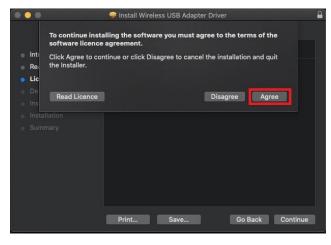

9. Click "Continue" to start installation procedures.

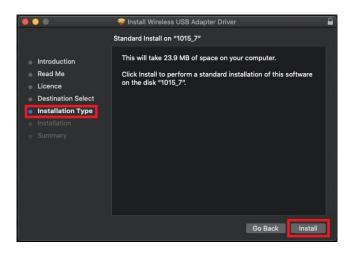

**10.** The screen displays important information, please read it carefully. Click "Continue" when you are ready.

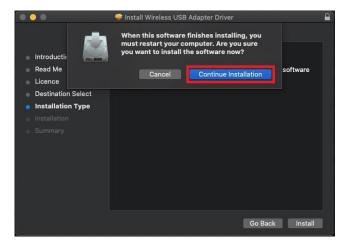

**11.** To read the software license click "**Read License**" and then click "**Agree**" to confirm you agree to the terms. You must agree to the terms to continue installing the software.

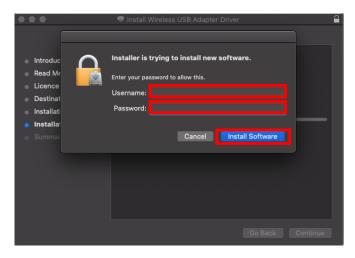

**12.** Once the information about the disk space prompts, click "**Install**" to continue.

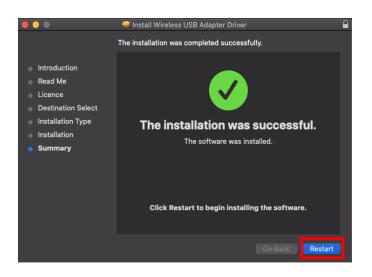

**13.** Click "Continue Installation" to install the driver.

**14.** Enter system administrator's "Username" and "Password" and click and click "Install Software".

**15.** The installation will take you a few minutes, once the installation is completed, click "**Restart**" to reboot your computer.

# IV-3. Connect to a Wi-Fi Network

 After you restart the computer, you can see Wi-Fi USB adapter icon on the top-right taskbar. Click the icon and then click "Turn USB-WiFi On" to activate the adapter.

**2.** After you turn on the USB WiFi, click the Wi-Fi USB adapter icon select "Join Other Network".

3. Select the Wi-Fi Network (SSID) and enter the password if it is required.

**4.** Establish connection that lets you access the Internet when you see the icon on the top-right taskbar.

WPS (Wi-Fi Protected Setup) is a simple, alternative way to establish connections between WPS compatible devices when using the Wi-Fi Adapter on a Windows computer. When WPS is activated in the correct manner for two compatible devices, they will automatically connect to each other without a password required.

# V-1. Software WPS

- To support WPS, driver installation is a prerequisite. Please refer to section III to install the driver first.
- 2. On your Wi-Fi Router or AP, press and hold the WPS button for a short while to activate WPS.

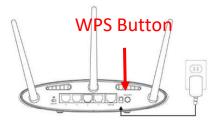

Please check the instructions of your Wi-Fi Router or AP to activate the WPS correctly.

- **3.** On the USB adapter, please refer to **section III-3-1-2** and skip "Enter Password" if the procedures are correct.
- **4.** The process takes a short while to establish connection. Once it's done, you can access the Internet immediately.

# V-2. Hardware WPS

- To support WPS, driver installation is a prerequisite. Please refer to section III to install driver first.
- On your Wi-Fi Router or AP, press the WPS button for the correct time length to activate WPS.

Please check the instructions of your Wi-Fi Router or AP to activate WPS correctly.

**3.** On the USB adapter, immediately, activate the WPS function by pressing and holding the "WPS" button for a short while.

**4.** The process takes a while to establish connection. Once it's done, you can access the Internet right away.

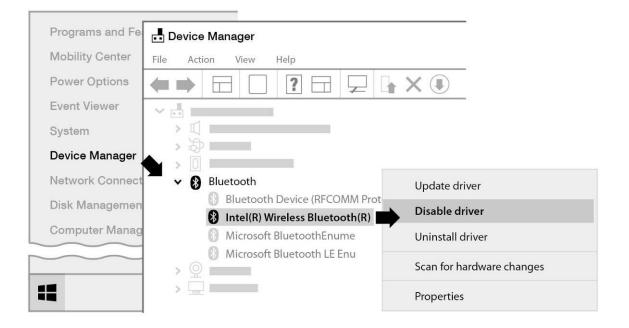

# VI. Frequently Asked Question (FAQ)

# Q1. Why doesn't the Wi-Fi icon display on the Windows taskbar?

A. Your computer doesn't support Plug-and-Play for this device. Please go to section III-2, to download and install the driver and try again.

## Q2. How to disable the existing Bluetooth device?

A. Right-click the Windows Start button and select the "Device Manager". Expand all the Bluetooth devices. Right-click on target device and disable the bluetooth device one by one.

# Q3. After the driver is installed, why doesn't the Wi-Fi icon display on the Windows taskbar?

A. For Windows 7, please right-click "Date and Time" at the taskbar and select "Properties". Find the system item "Network", set the behaviors as "On". The Wi-Fi icon will then be displayed on the Windows Taskbar.

# Q4. Why doesn't the Bluetooth icon display on the Windows taskbar?

A1. Click Windows Start button **and** other setting" 🔅 , select "Device and other setting", and set the stauts as "On" to enable thbluetooth service.

| Setting  |                               |
|--|-------------------------------|
| ය Home   | Bluetooth & other devices     |
| Devices  | Add Bluetooth & other devices |
| <ul> <li>Bluetooth &amp; other devices</li> <li>Printers &amp; scanners</li> </ul> | Bluetooth<br>On               |

A2. If the Bluetooth icon still doesn't appear, you may need to install the driver and try again. Please go to section III-2, to download and install the driver and try again.

# VII. More Information

#### Download

The following general safety guidelines are provided to help ensure your own personal safety and protect your product from potential damage. Remember to consult the product user instructions for more details.

- This product is designed for indoor use only.
- Static electricity can be harmful to electronic components. Discharge static electricity from your body (i.e. touching grounded bare metal) before touching the product.
- The device contains no user serviceable parts. Do not attempt to service the product and never disassemble the product.
- Do not spill food or liquid on your product and never push any objects into the openings of your product.
- Do not use this product near water, areas with high humidity, or condensation.
- Keep the product away from radiators and other heat sources.
- This device is not designed to be operated by children.
- Always unplug the product from mains power before cleaning and use a dry lint free cloth only

# IX. Simplified EU Declaration of Conformity

Hereby, Edimax Technology declares that the radio equipment type, Wi-Fi USB Adapter, is in compliance with Directive 2014/53/EU, 2014/35/EU.

The full text of the EU declaration of conformity is available at the following internet address:

The device is restricted to indoor use only when operating in the 5150 to 5350 MHz frequency range.

#### **Federal Communication Commission Interference Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1. Reorient or relocate the receiving antenna.
- 2. Increase the separation between the equipment and receiver.
- 3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4. Consult the dealer or an experienced radio technician for help.

#### **FCC Caution**

This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment.

#### Federal Communications Commission (FCC) Radiation Exposure Statement

This equipment complies with FCC radiation exposure set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 0.5 cm during normal operation.

#### **RED Compliance Statement**

#### Compliance with 2014/53/EU Radio Equipment Directive (RED)

In accordance with Article 10.8(a) and 10.8(b) of the RED, the following table provides information on

the frequency bands used and the maximum RF transmit power of the product for sale in the EU:

| Frequency range (MHz) | Max. Transmit Power (dBm) |
|-----------------------|---------------------------|
| 2400-2483.5           | 19.99 dBm                 |
| 2400-2483.5 (BR/EDR)  | 8.74 dBm                  |
| 2400-2483.5 (LE)      | 3.15 dBm                  |
| 5150-5250             | 22.97 dBm                 |
| 5250-5350             | 22.87 dBm                 |
| 5470-5725             | 22.92 dBm                 |

A simplified DoC shall be provided as follows: Article 10(9)

Hereby, Edimax Technology Co., Ltd. declares that the radio equipment type 11ac 1T1R Wireless LAN

with Bluetooth USB Dongle is in compliance with Directive 2014/53/EU

The full text of the EU declaration of conformity is available at the following internet

address: http://www.edimax.com/edimax/global/

#### Safety

This equipment is designed with the utmost care for the safety of those who install and use it. However, special attention must be paid to the dangers of electric shock and static electricity when working with electrical equipment. All guidelines of this and of the computer manufacture must therefore be allowed at all times to ensure the safe use of the equipment.

**EU Countries Intended for Use**The ETSI version of this device is intended for home and office use in Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland,

Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Turkey, and United Kingdom. The ETSI version of this device is also authorized for use in EFTA member states: Iceland, Liechtenstein, Norway, and Switzerland.

EU Countries Not Intended for Use

None

#### **EU Declaration of Conformity**
