Logitech® Wireless Keyboard K360

Logitech® Wireless Keyboard K360. Beautifully convenient. Conveniently compact. You'll enjoy more comfort with your laptop or netbook and a layout you're used to—in a space-saving design that's about 20% smaller than our standard keyboards. It's virtually hassle-free with a 3-year battery life* and plug-and-play setup that takes seconds. The things you do most are easier too, thanks to six Internet and media hot keys and 12 programmable F-keys.** Logitech Advanced 2.4 GHz wireless connectivity gives you the reliability of a cord with wireless convenience and freedom—all in a tiny Logitech Unifying receiver that's small enough to stay in your laptop and lets you add compatible devices to it. * Keyboard battery life calculation based on an estimated two million keystrokes/year in an office environment. User experience may vary. ** Programming keys requires Logitech SetPoint™ software (Windows®), available for download at www.logitech.com/downloads.

Feature

Logitech® Wireless Keyboard K360

Beautifully convenient. Conveniently compact.

- More typing comfort in a space-saving design
- 3-year battery life* and simple setup mean no hassles

Weight:	0.77 kg
Width:	17 cm
Height/depth:	4 cm
Length:	40 cm

Hassle-free design with a 3-year battery life*, pre-installed batteries and plug-and-play setup

Simplicity at its best. The three-year battery life practically eliminates the need to change batteries.* Setup is a breeze, too. You just plug the receiver in, pull the battery tab and start IMing smiley faces to your friends.

Six hot keys and 12 programmable F-keys**

Want to turn up the volume on a YouTube™ clip? Or jump right to Amazon® or your Facebook® page? It's all at your fingertips with six hot keys and 12 programmable F-keys** for instant access to the Internet, e-mail, play/pause, volume and more.

Logitech® Advanced 2.4 GHz wireless connectivity

Logitech® Advanced 2.4 GHz wireless connectivity gives you the reliability of a cord plus wireless convenience and freedom—fast data transmission, virtually no delays or dropouts, and 128-bit AES encryption.
