Printerinstelling voor Windows® XP/VISTA

EST biedt een simpel en eenvoudig hulpprogramma aan, dat u helpt bij het opzetten van USB-printers die aangesloten dienen te worden op de EST LPR printerserver als netwerkprinter d.m.v. een "netwerkprinter wizard". Dit hulpprogramma vermindert de tientallen stappen die nodig zijn bij het opzetten van een netwerk-printer via het Windows[®] "ingebouwde printer-hulpprogramma" naar slechts een paar klikken op de muis. Gebruikers hoeven niet langer de verwarrende IP-instellingen in te geven, de naam van de wachtrij en poortconfiguratie in te voeren.

Netwerk printerinstallatie wizard

Om de installatie op te starten, klikt u op het installatieprogramma:

Wacht tot dat het installatieprogramma start:

Selecteer de installatietaal en klik op "ok":

Klik op "voltooien" om het stuurprogramma te verlaten zodra de installatie voltooid is:

Het installatieprogramma heeft een snelkoppeling op uw bureaublad gemaakt:

Het instellen van de printer

• Nu is het mogelijk uw printer in te stellen. Klikt u op het "start netwerk printer wizard" ikoon dat gecreëerd is op uw bureaublad:

• Klik vervolgens op "**volgende**" om verder te gaan als u dit venster met "welkom" ziet:

Selecteert u nu de printer die u wilt instellen uit deze lijst en klik op "volgende". Het aantal printers die u op deze lijst ziet staan, is afhankelijk van het aantal printers dat aangesloten is op uw netwerk. Als u slechts één printer in uw netwerk heeft staan, ziet u slecht één printer in deze lijst.
 Indien u geen printers ziet, zorg dan dat uw printers en EST LPR printer-server correct ingeschakeld en aangesloten zijn op het netwerk.

Nyomtató telepítése Windows XP/VISTA alatt

Az EST egyszerűen és könnyen használható telepítőjének hálózatinyomtató-varázslójával hálózati nyomtatóként telepítheti az EST LPR nyomtatókiszolgálójához csatlakoztatott USB nyomtatókat. A Windows saját hálózatinyomtató-telepítőjének több tucatnyi lépése helyett néhány egérkattintásra lesz csak szüksége. Nem kell foglalkoznia obskurus IP-címekkel, várólista nevekkel és port konfigurálásokkal.

A hálózatinyomtató-varázsló telepítése

A telepítés elindításához kattintson duplán a telepítőre:

Várjon, amíg elindul a telepítő:

Válassza ki a telepítési nyelvet, majd kattintson az OK gombra:

Choose	Setup Language	x
2	Select the language for this installation from the choices below	¥.
	English (United States)	
	OK Cancel	

A telepítés befejeztével kattintson egyszer a Finish (Befejezés) gombra, amely bezárja a telepítőt:

A telepítő parancsikont helyez az Asztalra:

A nyomtató telepítése

 Most hozzáfoghat nyomtatója telepítéséhez. Kattintson az Asztalon levő Launch NetworkPrinterWizard (Hálózatinyomtató-varázsló indítása) parancsikonra.

Ha egy nyomtatót sem lát, ellenőrizze, hogy minden nyomtató és az EST LPR nyomtatókiszolgáló be van-e kapcsolva és a hálózatra van-e kötve.

Tulostimen asetukset Windows XP/VISTA:lla

EST tarjoaa suoraviivaisen ja helppokäyttöisen hyötyohjelman, joka auttaa USB-tulostimen asennusta, joka on liitetty EST:n LPR-tulostuspalvelimeen verkkotulostimeksi verkkotulostinvelhon kautta. Hyötyohjelma vähentää tarvittavien vaiheiden määrää verkkotulostimen asentamisessa Windowsissa olevan tulostinasetusohjelman kautta muutaman hiiren klikkauksen avulla. Käyttäjien ei tarvitse enää puuttua IP-asetuksiin, tulostusjonojen nimeämiseen ja porttien konfigurointiin.

Verkkotulostinvelhon asennus

Aloittaaksesi asennuksen kaksoisklikkaa asentajaa:

Ρύθμιση Εκτυπωτή σε Windows XP/VISTA

Το EST παρέχει ένα απλό και εύκολο στη χρήση βοηθητικό πρόγραμμα που διευκολύνει τη ρύθμιση των εκτυπωτών USB, οι οποίοι είναι συνδεδεμένοι στον διακομιστή του εκτυπωτή LPR του EST ως εκτυπωτές δικτύου μέσω του Οδηγού Εκτυπωτών Δικτύου. Αυτό το βοηθητικό πρόγραμμα μειώνει τα βήματα που απαιτούνται στη ρύθμιση ενός εκτυπωτή δικτύου μέσω του ενσωματωμένου προγράμματος ρύθμισης εκτυπωτών των Windows σε λίγα κλικ με το ποντίκι. Οι χρήστες δεν χρειάζεται πια να αντιμετωπίζουν την περίπλοκη ρύθμιση ΙP, την καταχώρηση του ονόματος ουράς και τη διαμόρφωση θύρας.

Ρύθμιση Εκτυπωτή σε Mac OS Χ™

 Το MAC OS από την Apple Inc. διαθέτει ένα ενσωματωμένο βοηθητικό πρόγραμμα παρόμοιο με τον Οδηγό Εκτυπωτών Δικτύου. Για να ξεκινήσετε, μεταβείτε στο "System Preferences" (Προτιμήσεις Συστήματος) στο μενού Dock:

Όταν ανοίξει το παράθυρο "System Preferences" (Προτιμήσεις Συστήματος), εντοπίστε το στοιχείο "Print & Fax" (Εκτυπωτές & Φαξ):

Κάντε διπλό κλικ στο στοιχείο "Print & Fax" (Εκτυπωτές & Φαξ) για να επιλέξετε τον εκτυπωτή που θα εγκαταστήσετε.

 Αυτό το παράθυρο σας εμφανίζει τους εκτυπωτές που έχουν εγκατασταθεί στον υπολογιστή Mac. Για την εγκατάσταση νέου εκτυπωτή, πατήστε "+" για να επιλέξετε τους εκτυπωτές.

•

Αν δεν εμφανίζονται εκτυπωτές, βεβαιωθείτε ότι οι εκτυπωτές σας και ο Διακομιστής Εκτυπωτή EST LPR έχουν τεθεί σωστά σε λειτουργία και είναι συνδεδεμένοι στο δίκτυο.

Når du har fjernet programmet vil du ikke lenger være i stand til å bruke skriverne du installerte med Network Printer Wizard.

Skriveroppsett på Mac OS X™

• MAC OS fra Apple Inc. kommer med en innebygd funksjon som ligner mye på Network Printer Wizard. For å komme i gang, gå til "Systemvalg" på Dock menyen:

• Når du har åpnet "Systemvalg"-vinduet, finn "Skriver og Fax" ikonet:

Dobbelklilkk på "Skriver og Fax" for å begynne valget av skriver:

 Vinduet vil vise deg hvilke skrivere som er installert på din Mac. For å installere en ny skriver, vennligst klikk på "+" knappen for å velge skriver.

 Velg skriveren du ønsker fra listen. Antallet skriver du finner på denne listen er antallet skrivere som er koblet til nettverket ditt. Har du bare én skriver, finner du bare én skriver på denne listen.
 Hvis du ikke finner noe skrivere der bør du forsikre deg om at skriverne og EST LPR Printer Server er slått på og har oppkobling mot nettverket.
