

User manual washing machine stand

Concerning products W9-20537, W9-20539 and W9-20560.

Verify that the following items are in the installation kit:

- 4 pieces of rubber feet
- 2 pieces of wall mounting iron
- 2 pieces of M8 bolt and 2 pieces of nuts.

Before using the stand, the following must be done:

- Mount the rubber feet (4 pieces) to the stand legs
- Adjust the rubber feet, into a horizontal level of the stand (use a water level)
- **Notice!!** Lock the rubber feet with the nut on the feet.
- Fix the wall mounting iron to stand with M8 bolt. Attach the stand against a wall.

Regarding which wall material, use a bolt which is developed for that kind of wall. (In uncertainty, ask the retailer for advice)

- After this you can mount the washing machine on to the stand.

Nedis can not be held responsible for any claims, if terms in the user manual or instructions not has been fulfilled.

Warning!

Make sure that the stand is on a solid ground. If the placing is near a floor drain or on an elevated place, be very careful that the stand is mounted in a correct procedure.
