

TIER TRAP FILTER

HSF 265

Article number 695004728

PRODUCT CATEGORY: 20 CATV

STATUS: AVAILABLE

Product

TIER TRAP FILTER
HSF 265

Tier trap filter to block a small band to enable one or two channels with own content (channel S16 & S17). The HSF 265 blocks the frequency range of 251 up to 293 MHz to make frequencies 265-279 MHz free for other use. The blocked frequency range is in the DOCSIS band of Ziggo (former Ziggo regions). This means the filter blocks a part of the internettraffic of Ziggo. We recommend to use two HSF 265 in a row to ensure the best result. See the wiring diagram for the correct installation. Also available in a version with other usable channels (channel S30 & S31) with a blocked frequency range in the DOCSIS band of the former UPC regions (HSF 374; article number 695004729).

TIER TRAP FILTER

Specifications

Electrical specification

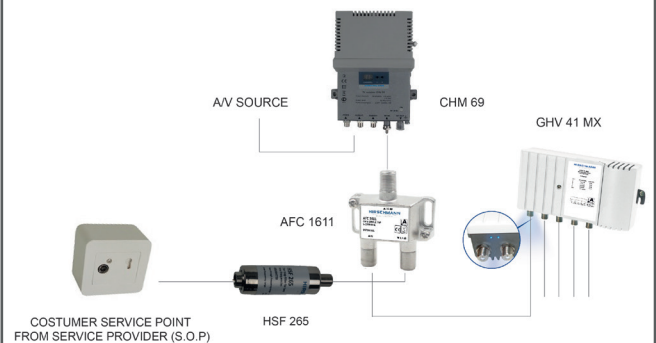

Frequency range	5 - 862 MHz
Impedance	75 Ohm
First pass band	5 - 251 MHz
Insertion loss	2.0 dB
Return loss	> 10 dB
Second pass band	293 - 862 MHz
Insertion loss	2.0 dB
Return loss	> 8 dB
Stop band	265 - 279 MHz
Rejection	> 48 dB

Screening effectiveness	Class A
Protection	IPx4

Mechanical specification

Housing material	Copper tube
Connector	F male and F female
