USB Type-C™ to Mini DisplayPort™ adapter

A large screen is needed!

This adapter can help! It is connected to a PC, notebook or mobile device using USB Type-C™ and outputs the video signal via the Mini DisplayPort™ connector.

The new standard

The USB Type-C™ connector can hold its own against the Mini DisplayPort™ counterpart. The high data bandwidth can easily transfer video resolutions of up to 4K@60Hz, provided the host device supports the "Alternate Mode" (with DisplayPort Video Support).

DisplayPort

The Mini DisplayPort™ reliably transmits video and sound files and therefore harmonizes well with new multi-media devices. It is often used in Apple devices and this adapter allows you to use these devices on a USB Type-C ™ interface.

Logistical data

Packing unit:	50 pcs./carton	**Dimension/carton:**	420x280x335 mm
Total weight:	5,6 kg/carton	**Dimension** (with packing)**:**	200x105x25 mm
Gross weight: (with packing)**:**	0.098 kg	**Dimension of article:**	45x30x14 mm
Net weight:	0.030 kg	**Country of origin:**	China
