Notebook DockingStation

The USB Type-C™ DockingStation is designed for connecting a USB Type-C™ embedded device (e.g notebook, etc.) to a HDMI® and a USB device. When you connect your Notebook's Type-C™ power supply to the adapter, you can charge it via Power Delivery 2.0. If it's not used for charging, you can use this port for data transfer instead.

USB Type-C™ notebook DockingStation

A bit of everything

With a USB Type-C™ host, three additional ports become available: 1x HDMI®, 1x USB 3.0 Type-A, and a second USB 3.0 Type-C™ port that also functions as a Power Delivery 2.0 port to charge the connected notebook.

Always at the ready

The integrated cable is always ready for use and cannot be lost. When stored safely in the cable mount, it stays out of unnecessary cable clutter in your pocket or drawer.

Always tough

A sleek, minimalist design with black aluminium perfectly complements most USB Type-C™ notebooks and makes the IB-DK4021-CPD a tough little DockingStation.
