

Professional Camera Tripod *Ballhead mounting*

USPs

- Regulating design of the elevator
- 2-Section center column
- Easily foldable legs

General information:

Camera tripod with individually adjustable legs. The typical regulating design of the elevator offers different damping effects depending on the weight of your camera. With the 2-section center column it's possible to realize the lowest shooting angle for your camera. The legs are easily foldable and secured to make sure the camera doesn't drop.
