Instalace

1. Přiložený napájecí adaptér zapojte do elektrické sítě a do routeru, jako je vyobrazeno na nákresu níže.

2. Zkontrolujte zda dioda napájení **svítí**.

3. Použijte Wi-Fi zařízení (např. Počítač, tablet, smartphone) a najděte Wi-Fi síť s názvem “edimax.setup” nebo “edimax.setup5G” a připojte se k ní.

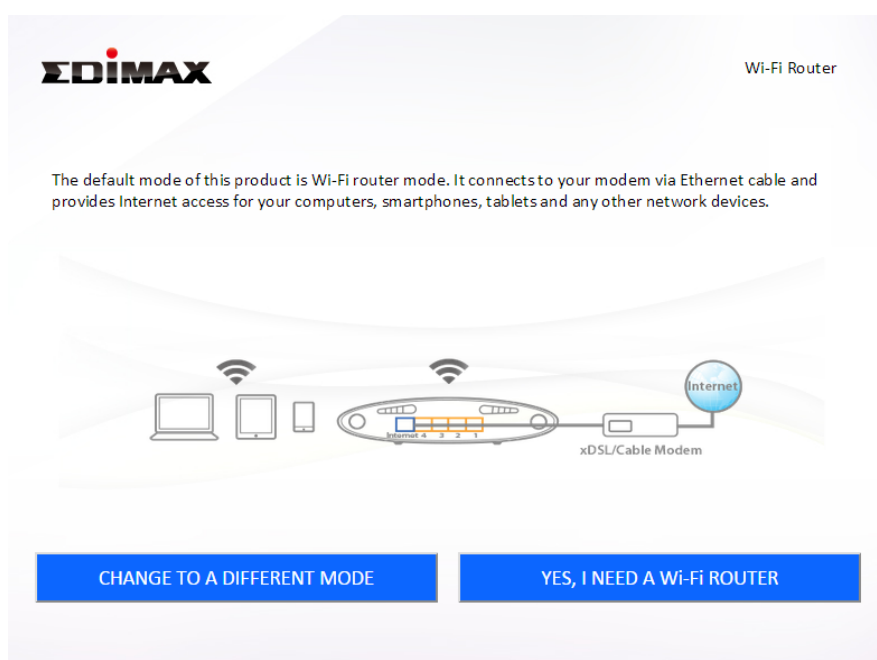

Pro nastavení pomocí tabletu nebo smartphonu je zapotřebí iOS 4 nebo Android 4 a vyšší.

4. Otevřete internetový prohlížeč a pokud nebudete automaticky přesměrováni na stránku “Začínáme”, zadejte URL adresu ***http://edimax.setup*** a klikněte na “Začínáme”.

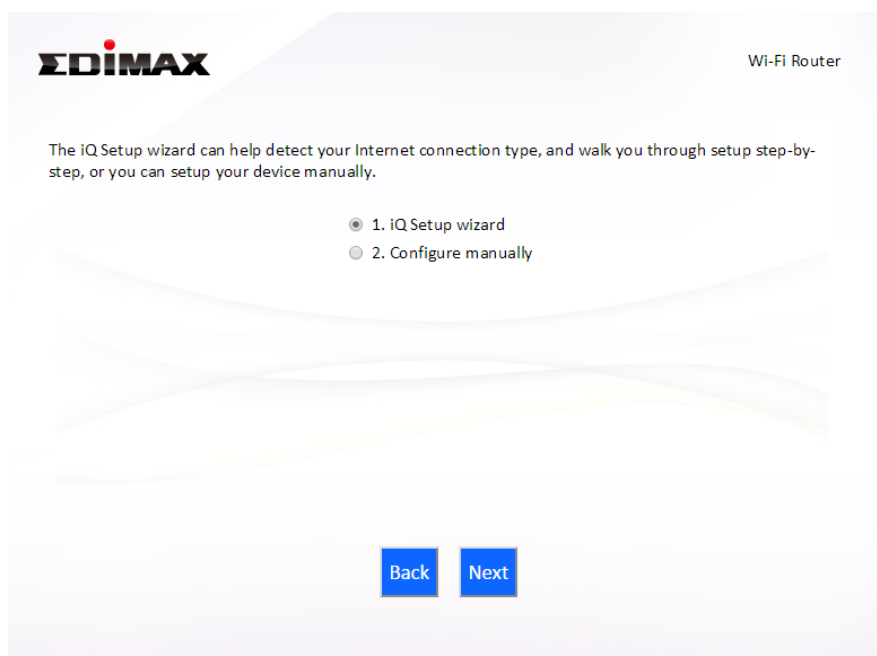

Pokud nemůžete přejít na <http://edimax.setup>, ujistěte se, že máte na svém počítači nastaveno automatické získávání IP adresy od DHCP serveru.

5. Vyberte, zda chcete používat BR-6478AC V2 v jeho výchozí režimu Wi-Fi router nebo zda chcete přepnout na jiný režim.

Wi-Fi Router	<i>Zařízení se připojuje k vašemu modemu a poskytuje 2.4GHz a/nebo 5GHz přístup k internetu (bezdrátově nebo přes kabel).</i>
Access Point	<i>Zařízení se připojuje k vašemu routeru a poskytuje 2.4GHz a/nebo 5GHz přístup k internetu (bezdrátově nebo přes kabel).</i>
Wi-Fi Extender	<i>Zařízení se bezdrátově připojuje k vaší existující 2.4GHz a/nebo 5GHz bezdrátové síti a opakuje její bezdrátový signál(y).</i>
Wi-Fi Bridge	<i>Zařízení můžete připojit například k: TV, herní konzoly, multimediálnímu přehrávači pomocí ethernetového kabelu a chová se jako bezdrátový most umožňující připojenému zařízení přístup do vaší bezdrátové sítě.</i>
WISP	<i>Zařízení se připojuje k vašemu poskytovateli bezdrátového internetu a poskytuje 2.4GHz a/nebo 5GHz přístup k internetu.</i>

6. Postupujte podle instrukcí na obrazovce pro dokončení nastavení.
Nahlédněte do uživatelského manuálu pro další pomoc.

Webové konfigurační rozhraní

Po instalaci se můžete přihlásit na adrese ***http://edimax.setup*** a nakonfigurovat nastavení jako je USB sdílení, VPN server a nastavení Wi-Fi. Zadejte ***http://edimax.setup*** do adresního řádku ve vašem prohlížeči na zařízení, které je připojeno k BR-6478AC V2.

Pokud se nemůžete dostat na adresu edimax.setup, připojte se k BR-6478AC V2 pomocí ethernetového kabelu a zkuste to znovu.

Výchozí uživatelské jméno je “**admin**” a heslo je “**1234**”.

FAQ

1. Jak používat USB úložiště?

- a. Připojte USB úložiště do USB portu na zadní straně BR-6478AC V2. Ve výchozím stavu je sdílení USB povoleno, takže zařízení na vaší síti k němu mohou přistupovat pomocí příslušných nástrojů v závislosti na operačním systému (např. Průzkumník Windows → Síť).

USB jednotka by měla být naformátovaná na systém souborů FAT32 nebo NTFS. USB huby nejsou podporované.

Pro více možností konfigurace jako je sdílení složek a FTP se přihlaste do webového konfiguračního rozhraní na **<http://edimax.setup>** a klikněte na položku USB v hlavní menu. Pro více informací nahlédněte do uživatelského manuálu.

2. Jak sdílet tiskárnu?

- a. Jděte do **USB → Základní nastavení** na **<http://edimax.setup>** a **povolte USB Sdílení** a vyberte **Print Server**.

Připojte tiskárnu k zařízení pomocí USB kabelu a ujistěte se, že máte na počítači nainstalované ovladače pro tuto tiskárnu. Poté nainstalujte Edimax Device Server Utility z příloženého CD (nástroj můžete stáhnout také z **USB → Základní nastavení**).

3. Jak nastavit VPN server?

- a. VPN server můžete použít pro vzdálený přístup do vaší sítě, ale také pro dodatečné zabezpečení. Přihlaste se na **<http://edimax.setup>** jděte na **Internet → VPN** pro nastavení VPN serveru. Pro připojení k VPN budete potřebovat klientský software (například OpenVPN).

4. Nemám přístup k internetu.

- Ujistěte se, že jsou všechny kabely zapojeny správně. Vyzkoušejte jiný ethernetový kabel.
- Zkontrolujte, zda máte přístup k webovému konfiguračnímu rozhraní. Pokud ne, ujistěte se, že je váš počítač nastaven na používání dynamické IP adresy.
- Přihlaste se do webového konfiguračního rozhraní a přejděte na **Internet > Nastavení WAN** a zkontrolujte, zda je vybrán správný typ připojení. Pokud si nejste jisti, kontaktujte poskytovatele internetu.
- Připojte počítač přímo k modemu a zkontrolujte, zda máte přístup k internetu. Pokud ne, kontaktujte poskytovatele internetu.

5. Nemohu otevřít webové konfigurační rozhraní.

- Ujistěte se, že váš počítač je nastaven na používání dynamické IP adresy. Pokud nevíte jak na to, nahlédněte do uživatelského manuálu.

6. Jak Resetovat zařízení do továrního nastavení?

- Pro reset do továrního nastavení stiskněte a držte tlačítko WPS/Reset po dobu alespoň 10 sekund, dokud nezačne blikat dioda Internet. Prosím vyčkejte pár minut, dokud se zařízení nerestartuje. Jakmile ude restartováno, všechna nastavení budou na výchozích hodnotách. Výchozí hodnoty najdete na produktovém štítku na spodní straně zařízení:

Router Login	Zadejte tuto hodnotu do internetového prohlížeče pro spuštění iQ Setup nebo konfiguraci pokročilých nastavení. K routeru musíte být připojeni kabelem nebo přes WiFi.
Username/Password	Výchozí jméno a heslo pro přístup do webového konfiguračního rozhraní.
Wi-Fi Network Name	Výchozí název bezdrátové sítě zařízení.
MAC	MAC adresa je unikátní pro každé zařízení. Slouží pro identifikaci zařízení v síti. Zde najdete unikátní MAC adresu vašeho zařízení.
PIN CODE	PIN Kód pro Wi-Fi Protected Setup (WPS) pro každou bezdrátovou frekvenci.

7. Zapomněl(a) jsem heslo.

- Resetujte router do továrních nastavení. Pro přihlášení do webového konfiguračního rozhraní použijte jméno admin a heslo 1234.

8. Pracují porty LAN a WAN stejně, když zařízení pracuje v různých režimech?

Ne, porty WAN a LAN mají jiné funkce v závislosti na vybraném pracovním režimu.

- V režimu **Wi-Fi route** slouží **WAN port** pro přímé připojení vašeho xDSL modemu. **Porty LAN** jsou pro klientská zařízení.
- V režimu **access point** **WAN port** nefunguje. Připojte existující router do **LAN portu** a ostatní **LAN porty** slouží pro připojení klientských zařízení.
- V režimech **Wi-Fi extender**, **Wi-Fi bridge & WISP** **WAN port** nefunguje a porty **LAN** slouží pro připojení klientských zařízení. Nepřipojujte existující router do **WAN** nebo **LAN portů**, může to způsobit selhání.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio technician for help.

FCC Caution

This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment.

Federal Communications Commission (FCC) Radiation Exposure Statement

This equipment complies with FCC radiation exposure set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 2.5cm (1 inch) during normal operation.

Federal Communications Commission (FCC) RF Exposure Requirements

This EUT is compliance with SAR for general population/uncontrolled exposure limits in ANSI/IEEE C95.1-1999 and had been tested in accordance with the measurement methods and procedures specified in OET Bulletin 65 Supplement C. The equipment version marketed in US is restricted to usage of the channels 1-11 only. This equipment is restricted to **indoor** use when operated in the 5.15 to 5.25 GHz frequency range.

R&TTE Compliance Statement

This equipment complies with all the requirements of DIRECTIVE 1999/5/EC OF THE EUROPEAN PARLIAMENT AND THE COUNCIL of March 9, 1999 on radio equipment and telecommunication terminal equipment and the mutual recognition of their conformity (R&TTE). The R&TTE Directive repeals and replaces in the directive 98/13/EEC (Telecommunications Terminal Equipment and Satellite Earth Station Equipment) As of April 8, 2000.

Safety

This equipment is designed with the utmost care for the safety of those who install and use it. However, special attention must be paid to the dangers of electric shock and static electricity when working with electrical equipment. All guidelines of this and of the computer manufacture must therefore be allowed at all times to ensure the safe use of the equipment.

EU Countries Intended for Use

The ETSI version of this device is intended for home and office use in Austria, Belgium, Bulgaria, Cyprus, Czech, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Turkey, and United Kingdom. The ETSI version of this device is also authorized for use in EFTA member states: Iceland, Liechtenstein, Norway, and Switzerland.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software—to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The “Program”, below, refers to any such program or work, and a “work based on the Program” means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term “modification”.) Each licensee is addressed as “you”.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep

intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
