#### H07RN-F

Industrial flexible cable, insulation and outer sheath in elastomer. Oil resistant, flame retardant according to IEC/EN 60332-1-2 standard. H07RN-F

#### **DESCRIPTION**

#### **Application**

The TITANEX® flexible rubber cable range offers exceptional performances and is designed to release you from all your constraints. Robust yet flexible, TITANEX® is easy to use and withstands the toughest of conditions, such as hard-wearing situations, extreme temperatures and most chemicals. For more than 50 years the TITANEX® cable range properties have been recognized as the best choice for all mobile and fixed installations in industrial environments such as construction sites. cranes, machines tools, factories, generators etc.

TITANEX® is also suitable for public environments and temporary events such as festivals or sports competitions, where the cable is often laid directly on the ground with no protection.

The cable may be rated 0.6/1 kV where the installation has built-in protection and for motors in lifting appliances - machine tools - etc.

#### Installation

This cable can be installed in open air or be buried but with extra mechanical protection.

#### Conductors laid up

Assembled conductors.

NEW ! MArking : The cross section marking is enlarged to allow easy identification during installation.
